OBJECTIVE

Third-year mechatronics and finance student with consulting engineering skills. Proven team member who efficiently uses AutoCAD to design building services while coordinating with other engineers, architects and consultants. Hoping to extend my engineering design skills through the MHH Special Team project.

EDUCATION

BEng(Hons.)/BCom

Monash University, Clayton
2022-2026

Mechatronics and Finance

SKILLS

- AutoCAD
- C Programming
- Arduino
- Team player

Professional Experience

Building Services Intern

Beehive Consulting Group | Feb 2023 - Present

- Used AutoCAD to design HVAC, hydraulic and fire services according to the Australian Standards
- Liaised with other engineers, architects and consultants to coordinate building services
- Contacted various authorities to ensure building code requirements were met and other infrastructure was not impacted

Branch Supervisor

NQT Education | Dec 2022 - Present

- Managed up to 10 tutors per session and assisted with any issues in the classroom
- Ensured smooth operation of the branch through administrative tasks such as cash balances, staff scheduling and stocktake
- Resolved concerns of parents and students with empathy and understanding

Volunteer Retail Assistant

Vinnies | Dec 2022 – Feb 2023

Front of House

Maguro Sushi & Oyster Bar | Dec 2021 – Jan 2023

EXTRA-CURRICULAR ACTIVITIES

Young Women in STEM

Hudson Institute of Medical Research | Jun 2019 – Jul 2019

Immersive laboratory experience, shadowing and making connections with medical researchers

Victorian Young Leaders to China

Victorian Government | Oct 2018 – Nov 2018

6 weeks global intensive language program where participants are immersed in the Chinese education experience
